Recent Contributions

▸ **Chi et al. (2026) v. 1** Palaeomagnetic Secular Variation of Early Miocene Vo... November 3, 2026 by **Yuchen Chi**

Download

MagIC Contribution Link: earthref.org/MagIC/20687
EarthRef Data DOI: 10.7288/V4/MAGIC/20687
Publication DOI: 10.1093/GJI/GGAG458

1 Location
113 Sites
1 k Samples
2 k Specimens
2 k Experiments
26 k Measurements

▸ **Roperch et al. (2023)** Anisotropy of magnetic susceptibility impressed... October 31, 2026 by **Pierrick Roperch**

Download

MagIC Contribution Link: earthref.org/MagIC/20904
EarthRef Data DOI: Queued For Creation
Publication DOI: 10.1016/J.PEPI.2023.107076

14 Locations
174 Sites
408 Samples
556 Specimens
729 Experiments
50 k Measurements

▸ **Poblete et al. (2016) v. 1** Late Cretaceous–early Eocene counterclock... October 31, 2026 by **Fernando Poblete**

Paleomagnetism.org file converter

To facilitate direction paleomagnetic data sharing between laboratories, Paleomagnetism.org has developed a **File Format Converter**. Visit the beta site and try it out. Please send comments, problem reports, or requests for additional formats to paleomagnetism.org@gmail.com

MagIC at AGU

MagIC presented a poster at last year's AGU conference in the Monday afternoon poster session **(GP13B-0307)**. A copy of the 2025 poster can be found **here**.

Mag-NetZ

MagNetZ (Magnetic NetworkZ) is a biweekly online seminar organized by **Greig Paterson** and **Anita Di Chiara**. The seminars cover topics in the geomagnetism, paleomagnetism, rock magnetism, archeomagnetism
